Two new positive cases of COVID-19 reported on Kaua'i

LĪHU'E —The Kaua'i District Health Office today reported two additional positive cases of COVID-19, bringing the county's total number of active cases to 16, and the cumulative total of cases to date to 37.

The two new cases involve a third household, but were identified and tested as a result of the Department of Health's contact tracing of the original case.

All 16 cases are currently in isolation, and all close contacts of those cases are in quarantine.

With each new case, the Department of Health expands its contact tracing investigation to identify, test, and quarantine close contacts. Updates on new positive cases will be announced as they are confirmed.

Today's new case will be reflected on the state's COVID-19 website at hawaiiicovid19.com. The count is updated at noon every day. For local updates, visit the Kaua'i Emergency Management Agency page, www.kauai.gov/COVID-19.
